Daily Biblical Quotation

WEDNESDAY, JANUARY 21.

If ye then, being evil, know how to give good its unto your children, how much more shall heavenly Father give the Holy Spirit to them that ask him? Luke 11 12

Come, Holy Spirit, heavenly dove, With all thy quickening powers: Come, shed abread a Savior's love, And that shall kindle ours. Grieve not the Holy Spirit of God. Eph. 4:30.

We are uncertain whether to call Mexico the Russia of the west or Russia the Mexico of the east, feeling at times that it would be stander either way.

In considering the "Red Menace" we have done considerable injustice to the foreigner and not enough justice to some of our native

What's in a name?" asks a conrespondent in the Kansas City Star. Well, about the only ones that we are uncertain about are those that came out of the war.

"We must be more careful of our emigration," said General Wood, speaking before the American legion at Boston. "We should look into its quality on board ship on the other side What's the use deporting through one door and allowing the rubble to come in unquestioned through the other?" Can you think of a sounder emigration policy than that?

The initial meeting of the league of nations seems to have been taken seriously by all save the gentlemen who arranged it. The report is that Lleyd George, Clemenceau and Nitti paused but a moment in the general assembly room. "passing into another room where they were in whispered conversation for a few minutes before taking their leave." This feature of the affair has shocked a good many commentators. who probably still cling to the "open covenants openly arrived at" idea.

Mr. Hamon's endorsement of socialism. The I Harreld for vol ing for the Milwaukee socialist, surprised no one who knows Jake Hamon. But it was a severe shock to many decent men who are following his cause in good faith, and who do not know Oklahoma politics. These gentlemen now have the opportunity for holding an executive session with their own conscience for the purpose of determining how much farther they

WHY HERBERT HOOVER?

The puzzle of the 1920 presidential free for all Wood, or Bryan, or Wilson. It is one Herbert Hoover. The man who came from no one knows whence, performed in the spoilight of international publicity for a time, said by his frends to be a republican but proved by his actions to be an internationalist of the ultra-Wilson type, with no political or partisan record, some say without even having cast a vote in the United States the gentleman who joined. with the president on the eye of the last campaign in asking the American people to eject a democratic congress so that the president might finish his war-flin gentleman, i- the favored object of propagands that seeks is make him president of the United States

What is to be said of it . From whence comes the millions that are unquestionably boosting Hoover, first for one purty nomination and then for another? And why?

As we said above it is the number the mystery of the political arena. No known; or hithertoaccepted factor in politics justifies or explains it. The most extensively circulated periodical in the country-opened the Hoover campaign. From obscurity, if not medicerity, it selected this man as being timber for the ideal president. Report has it that in the mountain states but one man is being talked for the democratic presidential nomination and that man is Hoover.

Julius Barnes, in a New York speech the other evening, put the unknown in the race. And democratic papers, notoriously faithful in their support of the president, are echoing this mysterlous deniand for Hoover.

It is not a matter that a republican paper should concern itself about. Yet in another respect it is. There is nothing to justify this Hoover movement. The motive behind it and the source of the funds backing it, are alike un-

known. Every American officen is very much oncerned in knowing what is going on.

Hoover was the right-hand man of the president on various occasions facing the war. His votes was the Wilson eshu. He shoul with the dollar a year men and was the best friend of he reason of his position as head of the food division, the hun of the whote economic struct.

is the the exploration? Has the administraon picked him for pulitical legalite and brought to his aupport that army of contractors and friends who have an wonderfully flourished through their assertances with and friendship: for the was organization that surrounded the persident's

That seems to be the only explanation posunite. Whatever the accepts Harrier Blenelf is: a part of it and is agreeable to its purpose. This, secrident from his own admit atterances of

We adven the American people on a whole ; and the democratic brethren in particular to watch with sense about the Houser developments at the court few manths. These acaons thing using on that is introops to both

RUSSIA, THE DESTROYER.

It might well hear the title. For frest and last, the land of the near has destroyed many governments, awallowed many armies. And it will stands the region uncovered, set to be reckoned with

The civilized wheat in votems conclave at Vermilles draws back aghast at the prospect of even attempting a solution of the Russian riddle. Statestien, who did not hesitate to pledge their peoples to engagements of tremendous coment, heatlated uncertainly for a time when considering Russia, finally refusing to face a mob. Yer all the while understanding that the mob, in one form or another, at one spot or another, nows be faced and conquered or submitted to as conquerers.

The peace parings of Versailles wrestled with the settlement of the war with Germany. There the foremost stalesmen of the time undertook to set a world to right and engage themselves to prevent it from ever becoming engaged in another war. In the background of the agreementa stood unlimited force." to use a phrase of one of them.

Yet the meetings were adjourned the worldcovenant designed to restore and keep peace was concluded without the slightest official recognition at the gates of civilization.

History affords no greater impudence or hypocrisy (choose your term), than the gentlemen of Vermilles offering them puny work as a world tranquilizer with the heast of bolshevism still running at large in Russia!

Clemenceau has fallen under the Russian shadow. That is fact. In England Lloyd George is trembling. When the Wilson of England refused to meet the Russian problem. drawing back instead, and for the first time in British history put the nation in the attitude of buying off a dangerous enemy, he signed his own political death warrant and performed the most ignominious act of his premiership.

The chancelories of the world can refuse to go to grips with the Russian beast, through fear of consequences; but they must be prepared to face consequences just as momentous because of that cowardice. For civilization will cry for peace in vain so long as the Russian menace remains unchallenged.

IS IT PEACE OR WHAT?

There is formal and offical peace netween Germany and the world. There is no longer the slightest reason for imposing restrictions. on news, social or business relations. For peace cannot exist, following a war, until governmental authority withdraws its restrictions and restores to the individual that freedom which is cherished characteristic of peace

spondents, American corespondents; too, in at other day were confronted by a refusal of the the refusal the Americans asked for reasons. and were referred to the foreign office. There they were advised that the allied committee in enforcing a provision of the peace treaty had construed it to apply to all news originating in Germany. Therefore the wireless and cables were closed to all news gatherers.

This, of course is war. Nothing less. The ruling house of Germany, in the heyday of its power during the war, did not impose a more ruthless censorship. Such action can have but one effect.

Once again we desire to go on record as say ing that Germany should either be accepted as a peaceable nation or an enemy in arms. If the latter, then let the armed forces lose to kill main until the war spirit is satisfied. If the former, then let peace teign. Give the wounds an opportunity to heat. For peace can not some to the world otherwise.

The Muskogee Phoenix expresses surprise that even Jake Hamon could be so crude and vulgar as to personally involt a candidate for the

Red Fork on the Sapulpa interurban.

H G RROTHERS.

Republican senators and democratic senators see and fully understand the unconquerable objections to putting the treaty into the campaign. They know, far better than the president in his enforced retirement can know, that the people stant nothing of the kind. An electoral campaign on that issue would be an act of monstrous cruelty to suffering millions, it would show callous disregard of the sore need of nations and of men should we drag this great charter of humanity into the mire of party politics, prolong for months the conditions of war and the suffering which has resulted from war while we took a referendum vote, solemn or otherwise, upon a question of which the people demand decisions should be taken by their chosen representatives—New York Times. sentatives. New York Times.

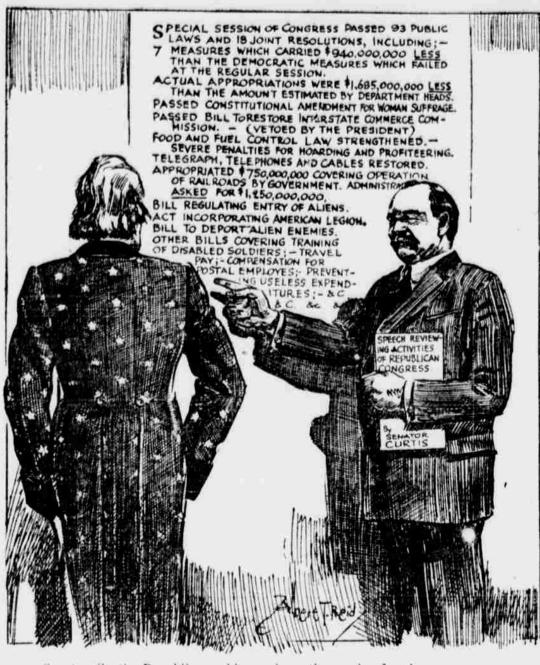

Puzzling.

Rather than admit a single reservation defining or inviting or safeguarding American participation in his league of nations the president is not willing to allow the heart of Europe to continue to bleed for an indefinite period. He has demonred the senale over and over again for devoting four or five menths to the examination and discussion of his treaty. Rather than that any of the changes suggested by that necessary process of examination and discussion chall become effective in the treaty he now himself proposes a solemn referendum on the subject 10 months in the future, with an additional delay of nebody knows how many months in give practical expression to the referendum's decision. We contess that the chronology of the president's project of ascertainment is puzzling in view of his previous urgency.—New York Sun. view of his previous urgency. New York Sur

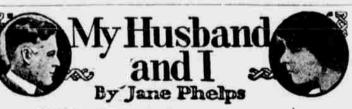

Uncompromising.

Mr. Wilson writes feelingly of the loss and humiliation which have come to the United States and the whole world through our failure to join hands with our aliles in the great and pressing work of rebuilding the ravage wrought by the war and in situiting the league of nations, and then he coolly talks of prolonging the uncertainty and the misery. Thereby he at once delivers himself into the hands of his enemies. They will triumphantly point to his letter and they will triumphantly point to his letter, and to his attitude revealed in it, as justifying all that they have charged him with. They have accused him of being obstinate to the point of unreason. They have said that he was too arrogant to take advice, too self-centered to work with others too ambitious to care what happens to his party. And it cannot be denied that his unfortunate letter yields color for these accusations—New York Evening Post.
